Welcome to the Claude Builder Club Hackathon

[Technical University of Munich]

[12.06.2026]

Claude Builder Club

Our Values

- **All are welcome**
 - Anyone can join a CBC, regardless of major or technical ability. Anyone can build!
- **Continuous learners**
 - If you have been making apps for years or have never written a line of code, there is always something to learn.
- **Foster creativity**
 - The CBC gives space for builders to jump in and create solutions using AI for anything that sparks your interest.
- **Fun and engaging community**
 - CBC members are enthusiastic about connecting with peers, attending events, and learning from guest speakers and one another.

Theme: Education

- Broad Theme, don't worry, it can be anything somewhat related
 - Foster creativity, chose something that you would use yourself
 - Most important evaluation criteria: **Impact**
-
- Output can be anything as well, App, website, Plugin, Skill ... **anything**
-
- **Use Git!** Important for submission and not losing progress

Submission guidelines

- 5 min presentation (you chose presenter(s))
- github/lab link to the **Submissions Discord Thread**
 - Include presentation etc as well
- Presentation can be a live demo, video, just a powerpoint
- We will evaluate Technical depth and execution, but most importantly **impact potential**, feasibility and **innovation**!

Team building:

- Please build teams of 2-4 persons, try combining different skills and AI subscriptions
